## Opening

Schellingstr. 48 | 80799 Munich

Dear friends of the gallery,

with this small exhibition a big dream of mine is coming true. Black, White and Grey are my favorite colors and now I am surrounded by artworks in this palette by artists, whose works I've been valuing and enjoying for many years. Befriended lenders and artists entrusted me with the desired desiderata and endowed me with this "temporary museum".

In the last year, all the artists of my gallery have participated in my 40-year-anniversary. I thank them very much for their contributions. They have been appreciated by numerous visitors.

I cordially invite you to the opening.  
Walter Storms
